Cairo Systems, LLC is pleased to now offer their proven, high quality training in the Microsoft Certified Systems Administrator (MCSA) program, Microsoft's entry and mid level network certification targeted at IT professionals.

As a Microsoft Solution Provider, Cairo Systems can provide organizations with customized training solutions to meet the needs of their network professionals.

The MCSA certification in Windows 2000 is a must have certification for network professionals & support staff working in a multitude of different environments.

The MCSA consists of 4 courses and corresponding exams. Below are the listed course titles and corresponding number of training days for each class.

| | |
|---|--------|
| Course 2151 - Windows 2000 Network and Operating Systems Essentials | 3 days |
| Course 2152 - Implementing Windows 2000 Professional and Server | 5 days |
| Course 2150 - Designing a Secure Windows 2000 Environment | 5 days |
| Course 2126 - Managing a Microsoft Windows 2000 Environment | 5 days |

In addition to high quality training, each student is provided a practice test voucher from the Industry's de facto test provider, Transcender, for each course that they take with Cairo Systems.

For more information regarding the MCSA training program in Windows 2000, or other additional information technology training programs please contact 703-751-4902.
