Cairo Systems, LLC is pleased to now offer their proven, high quality training in the Microsoft Certified Systems Engineer (MCSE) program, Microsoft's premier network certification.

The MCSE on Microsoft Windows® 2003 credential is the premier certification for professionals who design and implement the infrastructure for business solutions based on the Microsoft Windows XP/2003 platform.

Nine exams are required to receive the MCSE certification on Windows Server 2003. Below are the courses Cairo Systems teaches to meet the requirements of these nine exams.

Course 2272—Implementing and Supporting Microsoft Windows XP Professional	5 days
Course 2274 - Managing a Microsoft Windows Server 2003 Environment	5 days
Course 2275 - Maintaining a Microsoft Windows Server 2003 Environment	3 days
Course 2276 - Implementing Server 2003 Network Infrastructure: Network Hosts	2 days
Course 2277 - Implementing, Managing, and Maintaining a Microsoft Windows 2003 Network Infrastructure: Network Services	5 days
Course 2278— Planning and Maintaining a Microsoft Windows Server 2003 Network Infrastructure	5 days
Course 2279—Planning, Implementing, and Maintaining a Microsoft Windows Server 2003 Active Directory Infrastructure	5 days
Course 2830—Designing Security for Microsoft Networks	3 days
Course 2159—Deploying and Managing Microsoft Internet Security and Acceleration Server 2000	3 days

For more information regarding the MCSE training program on Windows Server 2003, or other additional information technology training programs please contact 703-751-4902.
